EDUCATION

Jabalpur Engineering College Jabalpur

B.tech - Artificial Intelligence And Data Science

2022 – 2026

Jabalpur, Madhya Pradesh

TECHNICAL SKILLS

Languages: C++, JavaScript, TypeScript, SQL

Technologies/Frameworks: Tailwind CSS, Bootstrap, ReactJS, Redux, Angular, NodeJS, ExpressJS, Git,

Database: MongoDB, MySQL

Developer Tools: VS Code, Git, GitHub, Canva, Figma

Other Skills: RESTful APIs, Version Control.

PROJECTS

Books store [🔗](#) | React.js, Tailwind CSS, JavaScript, EJS, Node.js, Express.js, MongoDB December 2024

- Designed a comprehensive book store platform using **React.js** for an interactive **front-end**, **Node.js** for **server-side** functionality, and **MongoDB** for scalable **data storage**.
- Architected performant **APIs** with **Express.js**, improving **backend** performance through efficient **MongoDB query** optimization and reduced response time.
- Configured a **responsive**, mobile-first **UI** with **Tailwind CSS**, boosting user **engagement** and **accessibility** through improved performance and seamless flexibility across devices.

WanderLust [🔗](#) | Bootstrap, JavaScript, EJS, Node.js, Express.js, MongoDB October 2024

- Created a fully responsive hotel booking platform with **RESTful APIs**, enhancing **user accessibility** through seamless navigation and optimized performance across all devices.
- implemented a scalable user profile management system with secure **MongoDB** authentication and seamless **image uploads**.
- Boosted** website performance by **reducing** page load times through advanced **EJS templating**, refined **database queries**, and efficient asynchronous processing.

LAZAREV [🔗](#) | HTML, CSS, Tailwind CSS, JavaScript June 2024

- Built a visually engaging and interactive **UI/UX** clone of the Lazarev platform using advanced **frontend technologies**, showcasing expertise in modern web development and responsive design.
- Applied **Tailwind CSS** for a modern, **responsive** design that ensures a seamless and intuitive user experience across various devices, improving overall **usability** and **accessibility** with enhanced performance.
- Implemented a Lazarev platform UI/UX clone utilizing **HTML**, **CSS**, and the **JavaScript** library **GSAP** to craft an **interactive** and **visually captivating** web application.

EXPERIENCE

Meteoros Automation [🔗](#)

Frontend Engineer Intern

February 2025 – Present

Chennai, Tamil Nadu.

- * Optimized website **performance** enhancement through strategic debugging and optimization., accelerating load speed, refining user experience, and improving efficiency while ensuring seamless scalability and responsiveness.
- * Developed front-end features using **Angular**, **TypeScript**, and **Tailwind CSS**, enhancing user experience through seamless interactivity, improved responsiveness, and a refined browsing experience.

Code X Intern [🔗](#)

React.js Frontend Developer Intern

August 2024 – September 2024

Jabalpur, Madhya Pradesh.

- Maximizing website **performance** via strategic **debugging** and **optimization techniques**, reducing load times and significantly improving **user experience** and site efficiency.
- Engineered interactive **front-end** functionalities utilizing **JavaScript** **libraries**, increasing user engagement and delivering a seamless, agile experience.

ACHIEVEMENTS

- Completed **200+ problems on LeetCode**, highlighting strong decision-making skills, in-depth knowledge of data structures and algorithms. [🔗](#)
- Achieved a **1480+ rating in LeetCode contests**, by solving challenging problems using logical analysis and a strong understanding of competitive programming. [🔗](#)
